Evals

Kelsie James 2020 5'1 PG Flight SDE UAA Jeffersonville

Kelsie was all over the floor making plays baseline to baseline. Handles the ball well against pressure with a confidence. Uses small size to her advantage playing low with a strong core and explosiveness making her difficult to keep in front of you. She is going to make you earn every inch of the floor defensively and pressures other points into turnovers. A waterbug that makes plays and puts pressure on you on both ends.

Amber Wolf 2020 6'0 NWI Thunder South Central

Still a little under the radar in our opinion. Amber is as versatile as they come and will do what is needed to make her team successful. She can go defend a post and turn around and bring the ball up or go post up a frontline and come down and defend a guard. She can essentially play any spot. Can put the ball on the floor and handle against pressure and score it at all levels. Hard matchup for opponents. Goes to the boards and is a willing defender with a good motor.

Kristian Young 2020 5'5 PG IE Thunder Lawrence North

High level handles and a motor make her a playmaker going to the basket. Can get the edge and take on second line defenders by finding open teammates on rotations or finishing deep. Shoots it well out to the three point line and creates on the move as a good decision maker. Ball hawk on defense with quick hands and feet putting a lot of pressure on opposing guards. Rebounds well for size from the backcourt as well.

Maycee Lange 2021 6'0 F Team Indiana Vincennes Lincoln

High level motor, a good athlete that is bouncy and has an aggressive mindset on both ends. Moves well with good feet and hands and capable from 15' but doing most of her damage near the basket. Gets off the floor quick and has a nose for the ball. Elite level rebounder on both ends and can defend multiple spots with athleticism and length.

Jessica Carrothers 2022 5'7 IE Prime Crown Point

This kid has an elite level feel for the game, always involved in plays on both ends and simply has the anticipation for play that sets her apart. Put that with an extreme motor, athleticism and high level skill set and she is a stat stuffer. Explosive with the ball getting to the rim time and again. A bit of a hitch in her jumper but effective & consistent result. Defensively pressures turnovers in bunches and gets points in transition. Makes tons of plays on both ends.

Kate Clarke 2022 5'11 G Indy Magic Carmel

Long, fluid, good feel and can score it at all levels. Shoots it well from deep and a solid ball handler that can put it on the floor and get to space and uses length to finish in mid-range or at the rim. Scored it at a high level. Overall good athlete, deceptively quick step, and can create her own opportunities. Can defend multiple spots with length and agility.

Madi Kerrigan 2022 6'1 F Indiana Showcase Westfield

Madi has got more reps with a recent injury to a teammate and she is taking advantage of it. Playing strong and physical at the basket, making the most of her touches and doing what her team needs rebounding the ball and giving a physical presence on the defensive end. Has a capable offensive skill set and shows good touch and feet at the basket. Comfortable with ball from the wing and can put dribbles together to create. Rebounds it with aggressive mindset and gets to balls outside her area.

Alison Sauders 2022 5'8 PG Flight UAA North Harrison

We have been impressed with Alison's play from the point over the last year in our views. Playing against some of the top guards in the state and against some elite level defenders, like Kristen Young, really confirmed that Alison is part of this elite PG sorority. She has high level handles, can make plays against pressure, has a calm about her game and makes good decisions. She can shoot it well and is a high level distributor. Good feel for the game and shows an efficient effortless game.

Lilly Stoddard 2022 6'3 F IE Prime Crown Point

Long with extreme wingspan , moves well, getting stronger and developing some nice counter finishing moves. All reasons to think the sky is the limit for this prospect. Really liked the noticeable progress and confidence in her game at the basket. Put together some great footwork and finishes. Hit the boards hard on both ends and rebounded outside her area with active feet and motor. As she continues to add bulk and strength she will be a frontline that is very difficult to deal with.
