

Nike Tournament of Champions

July 2016

Chicago, IL

The Nike TOC is one of the largest girls grassroots events in the country with 54 courts in the McCormick convention center in Chicago, Illinois. Several of Indiana's club teams were in attendance including Always 100, Flight, Gym Rats, Hoosier Premier, Get Shook, MBA Select, NWI Thunder, Arena Heat and Indy Shock. Following are 12 prospects that shined during our viewing of their contest.

Arena Heat

2018 PG 5'6 **G.Meixel** Mishawaka

Greta played strong and physical with the ball whether she was running the point or catching and attacking from the wing. Demonstrated an explosive first step with the ability to get to the rim and finish with body control and touch. Also showed to be a confident competitor with good leadership qualities.

Flight Strike

2018 PG 5'9 **K.Traylor** Martinsville

Explosive lefty PG that used her athletic ability and skill set to push tempo and break down defenders on both the break and in the half court to get to the rim, creating scoring opportunities for herself and teammates. Quick hands and feet on the defensive end led to an effective transition game from steals, deflections and turnovers. High D1 commit to Purdue

Flight Thunder

2018 F 6'2 **E.Kiser** Noblesville

Strong athletic frame that has the mindset to play physical on both ends of the court. Emily continues to improve her offensive skill set. While she is comfortable with the ball away from the basket, she is at her best around the basket being physical, rebounding and receiving the ball in the low post. D1 prospect with offers

Get Shook

2019 W 6'1 **S.Nolan** Marquette Catholic

Size with a very versatile skill set. With a 6'1 athletic frame Sophia is a natural wing but has the ability to operate in the post with her size and strength or can step out and hit the 3 as well. Rebounds the ball well and has skill to take the ball off the boards and push it in transition. D1 prospect with offers.

Hoosier Premier Red

2017 PG 5'4 **K.Stull** John Glenn

High motor PG that seems to play bigger than her frame. Fearless attacking the rim and does a nice job of finishing around bigs with her ability to elevate and create space with athleticism and body control. She makes good decisions with the ball, values possessions and understands controlling tempo.

Hoosier Premier White

2020 G 5'7 **R.Pate** Penn

Did a quality job of running the point and making good decisions with the ball. As a youngster she is still growing and filling out her frame but plays physical and hard on both ends.

ILGR Burgundy

2017 F 5'10 **R.Hinton** Woodlan

Athletic forward with a strong frame that does a lot of the physical work around the basket. She does a good job of checking out and attacking the ball off the rim, along with playing physically for position in the post on both ends. Best when working out of the mid to low post area.

ILGR Purple

2018 G 5'8 **K.Hunt** Elkhart Central

Krisen has the athletic ability and skill set to create her own shot. She is a take control scorer that has confidence in those abilities. She can shoot it from 3 and is adapt at getting to the rim with that athletic ability and solid handles. Could use better shot selection at times but we like her willingness to be aggressive and take control.

ILGR Tan

2017 G 5'9 **T.Steele** Crown Point

A high motor versatile guard that gets after it on both sides of the ball. While she doesn't shoot the 3 much, she has a

solid mid-range game and a scraper around the basket. Rebounds very well from the guard spot and displays high ball iq. Averaged 14ppg & 7rpg as a junior.

Indy Shock

2018 G 5'9 **A.Adams** Franklin Central

Adams is a smooth shooter that has a good feel for the game. She has a good combination of size, agility, and skill. While most suited at the SG with nice shooting touch and ability to handle when needed, she also has the size and ability to defend the wing.

NWI Thunder

2018 PG 5'5 **M.Scheidt** Crown Point

True point guard that has handles, solid decision making and excels as a facilitator. She has the ability to score as well when called on with a capable jumper and a skill set to get to the rim. Stays active on defense and active on the boards from the point.

MBA Select

2017 F 5'9 **H.Dunn** Tippecanoe Valley

Undersize 4 with a strong frame that has a skill set on the offensive end to translate to the 3. Good mid-range jumper, physical around the basket, rebounds the ball, can handle from the wing and a plus distributor from the forward spot.
