

# USJN Indy 100 Recap

July 9<sup>th</sup> 2017

Westfield, IN

A one day stop back in Indianapolis on the July first session tour , to take in the 40 Indiana teams that took part in the 8<sup>th</sup> annual USJN Indy 100. Fourteen Indiana teams went on to win their pools in the event. Following are a few prospects that were on their game during our viewing of the event.

**2018 Bridget Nash 5'3 PG Flight Bishop Chatard**

High IQ player who brings a lot of energy to the game and is a vocal leader on the floor. Sees the floor well and makes smart passes to put players in scoring position. Pushes the ball in transition, really putting pressure on the D. Drive and dish type player but can hit from 3 and has some variety in the midrange, good shot selection.

**2019 Jordyn Barga 6'0 W Midwest Finest Monroe Central**

Long strong frame with versatile skill set and good feel for the game. Can operate in the backcourt if necessary but best suited on the wing where she is able to exploit matchups. Capable jump shooter out to the 3 line, plays physical off the dribble, able to post up most defenders and finish with touch and good feet. Adequate ball handler but could elevate game with tighter handles. Goes to the boards hard and covers a lot of ground on D.

**2019 Daleshia Davis 5'6 G Legit FW Snider**

Really skilled prospect that we don't get to see too often. Shows her athleticism and tight handles going to the hoop where she is a crafty finisher. Could use more consistency as a jump shooter but hits enough to keep defense honest. Quick feet puts her in position to pressure the ball and get turnovers where she shines as both a scorer and facilitator in transition.

**2020 Alaina Frankel 5'7 G Magic Center Grove**

Has a nice feel for the game which allows her to play either guard spot but more effective at point guard. Shows range out to the 3 point line. Is able to put the ball on the floor and create for teammates or get to the basket where she shows good variety and ability to finish in traffic.

**2020 Addie Gardner 5'9 G Midwest Finest Frankton**

A threat to hit from deep with a quick, high release off the catch she is able to stretch the D. Gets into the paint off the dribble and shows nice touch on her pull-up jumper. Uses her length to finish around the basket. Doesn't force up a lot of bad shots and is a willing distributor.

**2020 Maddie Lawrence 5'11 G Midwest Finest Winchester**

Maddie made a big splash as a frosh this past high school season (16ppg, 7rpg). Combination of skill, size and instincts make her a tough matchup. She excels at being physical off the dribble attacking the rim. She has the skill to beat most match ups off the dribble and has the frame, athleticism and body control to finish at the rim. Gets to the line often with her aggressive mindset. Has a capable jumper that will keep her defender honest. Rebounds well from the backcourt and capable of defending several spots.

**2020 Lindsey Syrek 6'2 F Magic University**

Long skilled young prospect. 6'2 and has been adding strength to her frame over the last year. Operates well in the mid post but her game translates to both stretching it out from the wing or posting deep. Moves and runs well baseline to baseline, showing soft hands along with active feet. Can score in a variety of ways and can affect the game on the defensive end with length. Has been winning more battles on the boards and in the low post defensively as she has been getting physically stronger.

**2020 Claire Tanner 5'7 G MBA Select Plymouth**

Makes plays that puts pressure on the defense. Puts teammates in scoring position with passing and vision. Can score at all 3 levels with the ability to create and always catches ready to make a play. Defensively demonstrates active hands and good positioning.

**2020 Taylor Westgate 6'1 F Midwest Finest Oak Hill**

Taylor had an exceptional high school season as a frosh (12ppg, 10rpg). She is working her way back from a spring injury but showed why she is regarded as high potential frontline prospect in her class. Solid athleticism around the basket with ability to get off the floor and physically own her space. Rebounds at a high level and able to defend out to the perimeter. Demonstrated nice touch around the basket while being physical to the rim. Increased ball handling work will assist with face up game.

**2021 Grace Adams 5'11 W Hoosier Premier Penn**

First noticed this prospect early in the spring and she has already impressed in several showings. Long athletic frame with versatile skill set. Can nearly play and defend any position at grade level. Able to assume point responsibilities or able to go to work along the baseline in the frontcourt. Smooth stroke out to the 3 point line and a difficult match up with her length and ability to handle pressure. As she continues to add strength she will add the ability play at a higher physical level.

**2021 Rebekah Gordon 5'11 F IE Swish Heritage Hills**

Already has a strong high school frontline frame with strength. Had an aggressive mindset on both ends and used her physical attributes to win battles. Attacks rim off the catch and finished with touch and athleticism. Got to the line and stayed active on both ends.

**2022 Kuryn Brunson 5'9 G Red Storm Franklin**

Don't get the opportunity to see many in the 2022 class but Kuryn's team was playing up and she stood out with her advance skills and athleticism. She played aggressive with the ball, attacking the rim with multiple athletic finishing moves. Excelled in transition creating for teammates and putting pressure on D. Will be a fun prospect to keep an eye on the coming years.

**2022 Rayah Kincer 5'8 G Faith Franklin Central**

Really can score points in a hurry, already showing the ability to score at all 3 levels. Is able to find seams in the defense and get to the basket off the dribble, finishes well in traffic. Nice form on her jumper. Stays involved on the defensive end and makes plays with active hands. Strong frame allows her to match-up at multiple positions.
