Hannah Farrell 5'9 G 2020 Indy Magic Scott Greenfield Central

Hannah had an outstanding tournament, leading her Indy Magic squad to the Platinum Division Championship. During pool play, with the absence of Tabor, Hannah took on the bulk of reps from the point and shined throughout the day. Made good decisions with the ball of when to facilitate and when to find her own opportunities. Good balance of skill in her offensive game with ability to score at all levels. Has added strength to her frame and is able to rebound from the guard spot with a nose for the ball. **ALL-TOURNEY TEAM**

Megan Harlow 5'9 G 2019 Indiana Showcase Whiteland

Blue collar tough kid that shows versatility in her game. Megan will do what her team needs, that may be running the point offensively and defending a bigger forward on the other end. Plays physical with a high motor and doesn't need the ball to be effective. Capable of knocking down threes, playing downhill to the rim and will go the boards against bigger matchups. **ALL-TOURNEY TEAM**

Sydney Jaynes 6'1 C 2021 Indiana Flight Prime Trinity Lutheran

Strong with good mobility. Looking more and more comfortable as a ball handler and a passer, shows comfort handling the ball in the full court if the outlet isn't immediately available. Is starting to be vocal defensively, has a team impact on defense. Finishes well around the rim and is starting to show the ability to create a good look in the post.

Jackie Maulucci **5'7** **G** **2020** **Indy Magic Blanding** **Hamilton SE**

Deceptively quick guard with a long frame. Uses change of speed to create space for herself, is able to shake first defender and find room to operate between the 1st and 2nd level of the defense. Able to finish in traffic, shows creativity to find angles. Good range on her jumper, not one you can leave open. Crafty defender, can give ball handlers fits with quick hands.

Alex Richard **6'0** **F** **2021** **Indiana Flight Attack** **Avon**

Continued her impressive spring showing by being named to the Platinum Division All-Tourney team. Absolutely owned the boards at times during weekend play. As noted in previous write up this spring, her athleticism, strong frame, aggressive demeanor was highlighted throughout the weekend. Finishes around the basket, comfortable out to 15 and can put the ball on the floor against other forwards. Will need to extend her game out a bit as a 6 footer and consistency will come with continued experience at the highest levels. **ALL-TOURNEY TEAM**

Lucy Robertson **6'2** **C** **2020** **SDE Sullivan** **North Harrison**

Lucy is on the verge of becoming a house hold post name in the 2020 class. As her frame fills out and she adds strength her ability to control her space and win physical matchups is starting to show out. Her length and wings allow her to change and block shots as a rim protector. Agility to rebound out of her area, runs the floor well, and shows solid hands and feet on post entry. Will need to continue to add to post finishing moves and confidence with the ball deep.

Hailee Robbins **5'10** **F** **2020** **Indiana Flight Attack** **Franklin**

Versatile combo forward, strong frame and a growing skill set could be more of a wing than a forward before long. Ability to stretch the floor with her jumper allows her to create straight line drives, doesn't shy from contact and finishes strong. A solid defender overall, increase in foot speed would help her against quicker perimeter players.

Michaela Schmidt **5'11** **F** **2019** **NWI Thunder Gold** **Highland**

Michaela will simply out work you, she will beat you to the spot, win physical battles she will put pressure on you to match her intensity . Efficient in the lane on touches, with good hands, feet and finishing ability in the lane. Rebounds well, by staying active, positioning and a nose for the ball off the rim. Understands how to use her strong from to get separation at the basket and get herself to the free throw line by embracing contact. **ALL-TOURNEY TEAM**

Abby Stoddard **6'0** **W** **2020** **Team Indiana** **Crown Point**

We had only seen Abby sparingly before this spring but now have had a chance to see her over three events and there is a lot there to like. Her length and athleticism is what you first notice combined with backcourt skills. Has a good step to the rim coming off screens and can create opportunities with length and elevation once defender is on her hip. Will need to fine tune handles in open space to create for herself and continue to improve consistency in jump shot game but tools are there to be elite.
