She is on the attack and is extremely active defensively getting deflections and steals that turn into transition buckets. In the half court she can handle when needed and can create a variety of different scoring opportunities going to the bucket with her agility. A bit under the radar senior prospect that brings a lot of value with her combination of athleticism, skill and energy. Kristin was productive and consistently got buckets throughout the event.

Bailey was out this spring and summer and this was her first event back. You would have not known it as she was as active and efficient as always. She has a big strong post frame, has continually improved as a finisher and has always gone hard to the boards. She has a history of producing and being a workhorse around the bucket. It was nice to see her back on the floor competing at a high level, which I'm sure was a big confidence boost for her as well.

Chaney has made a lot of noise over the last nine months as an immediate starter and go to scorer at the 4A level as a frosh and she backed that up with an outstanding club season at her age level. We were curious to see how that would translate against the top talent in the state and she did not disappoint. Chaney has a strong frame, an athletic game and shows quite a bit of versatility. She can knock down jumpers out to the three-point line but does a lot of damage around the bucket with her athleticism.
